RE: Development Application for 1791 and 1809 Mandurah Rd

As a committed community member of Rockingham Montessori School I fully endorse the proposal that has been submitted to Council for the School to establish an alternative education facility for the Rockingham and Peel regions at 1791 and 1809 Mandurah Roads, Karnup.

I believe that a development such as this nature can only add value to the entire Rockingham community by providing a viable alternative option for education for all children.

Yours sincerely,
